

ABOUT OUR COMPANY

Clean Tech Chemicals has been one of the leading complete Cleaning solution suppliers to the hospitality industry for the past 10 years. We pride ourselves in offering our clients the highest level of service, which combined with our premium products is the reason we are such market leaders. We offer a large range of cleaning chemicals carefully developed for each industry that we service such as automotive and food and beverage. Our team are extremely passionate and are all focused on offering our clients the best solutions and help to make sure they get the best results when it comes to their cleaning needs. .

“We service the Automotive, Contract Cleaning, Food & Beverage, Hospitality, Industrial and Laundry industries..”

OUR SERVICES

We offer a customised solution specifically designed for your companies cleaning requirements. Personalised service is what you get.

Cleaning Chemical Solutions

All cleaning chemicals are manufactured in house at our factory in Cape Town and service the Automotive, Contract cleaning, Food & Beverage, Hospitality, Industrial and laundry industries. Each range varies in standards from SABS approved chemicals to cater chemicals..

Consumable Solutions

We stock a wide range of consumables with each range varying in pricing to certified hygiene standards.

Training & Orientation Services

We offer an orientation training session for every client that begins to use our cleaning chemicals, which teaches them on how to use the product correctly and how to clean correctly. Our SABS and HACCP approved clients are offered a specialised service plan including services such as training and site inspections. .

WHY CHOOSE US?

Clean Tech Chemicals is a SABS and HACCP compliant company and here is more reasons to choose us....

CUSTOM SOLUTIONS

We offer each client a tailor made solution according to their cleaning requirements and budget. This solution includes the guidance and assistance needed for a client to become SABS or HACCP compliant. Our SABS and HACCP solution will include the necessary dilution equipment.

INSTALMENT SOLUTIONS

Clients choosing to use SABS and HACCP compliant chemicals are offered the necessary dilution equipment as our chemicals are sold in a concentrated format. This equipment ensures that there is no wastage of chemicals helping to save on your expenditure. All Equipment is serviced and maintained by us. .

PRIVATE LABELLING

We offer corporates the opportunity for us to private label a range specifically designed for them. .
